Portfolio

CORE COMPETENCIES

UI Design, Development & Estimations

API Development

DB Design in MySQL and SQL Sever

SPA Development

Integration with back-end (REST API)

Hybrid Mobile App Development

Responsive Development

Google Map Integration

Performance Optimization

D3, Google chart library

Integration

Packaging and Deployment

Team Building / Leadership

Education

MCA – Master of Computer Applications, R V College of Engineering (Distinction)

Summary

As a Software professional with 5+ years of experience, I offer expertise in overseeing all aspects of design, development, implementation, maintenance of Web Designing, User Experience and User Interface Development. My core proficiency is Web and Front-End Development (JavaScript, ReactJS, Redux, Mobile development). Also, I am skilled in HTML5, CSS3, Bootstrap, RESTAPI, JSON, Docker, MySQL and SQL Server. I have concrete experience in delivering results timely while working on the latest technologies in dynamic environments.

Professional Experience (2016 – 2022)

Tech Stack:

HTML5 | CSS3 | Bootstrap | JavaScript | ReactJS | Redux | JSON | RESTApi | Docker | SQL Server | MySQL | GitHub |

- Implemented websites and metric dashboards from concept through deployment
- Assessed UX and UI designs for technical feasibility
- Developed standard and ad hoc reports in graph format as required
- Collaborated with product team members to implement new feature developments
- Experience in end-to-end software application development
- Involved in high-level and low-level design modules
- Developed data visualization templates
- Designed and developed responsive web pages using Bootstrap Grid System and Flexbox model.
- Involved in creating database designs and writing SQL queries, stored procedures and functions
- Well versed with agile and waterfall development techniques
- Mentored junior team members to achieve an increase in team productivity
- Recipient of multiple Enterprise level awards for successful contributions to the organizational objectives

Volunteering Experience

Development Project Manager for JeevaRaksha Trust (NGO)

Tech Stack: Ionic React JS | REST API | Google Map | Bootstrap

- The objective was to build a mobile application for Emergency healthcare response
- This app focuses on closing the time gap by connecting a requisitioned (bystander) with a certified JeevaRaksha provider so that recovery efforts can start earlier
- This App also enables coordinating emergency care services to a site of disaster by streamlining appropriate personnel
- Standardized all output with a new , responsive, mobile first approach and strategy
- This project was successfully rolled out by the State Government

Educational Facilitator - Memorial Charitable Trust

- Actively volunteered as a tutor in teaching camps for rural children
- I have been involved in facilitating educational and hygiene awareness programs in Rural Government schools

Achievements

- Received a Certificate of Appreciation from Rajiv Gandhi University of Health Sciences for developing and deploying the "RGUHS-JeevaRaksha App"
- Represented multiple soccer clubs at different divisions in India
- Represented INDIA in the World Corporate Soccer Championship held in Monaco
